about the author

Michael Hausenblas works in the Amazon Web Services (AWS) open source observability service team, where he leads the OpenTelemetry activities. He has more than 20 years of experience in data engineering and cloud-native systems. Before AWS, Michael worked at Red Hat on Kubernetes, Mesosphere (now D2iQ) on Mesos and Kubernetes, MapR (now part of HPE) as chief data engineer, and spent more than a decade in applied research in the symbolic AI space.
