Bina Ramamurthy received a BE (Honors) from Guindy Engineering College, Madras, India; an MS in Computer Science from Wichita State University, Kansas; and a PhD in Electrical Engineering from the University at Buffalo.

About the cover illustration

The figure on the cover of *Blockchain in Action* is captioned “Fille de Bulgarie,” or “Bulgarian Girl.” The illustration is taken from a collection of dress costumes from various countries by Jacques Grasset de Saint-Sauveur (1757-1810), titled *Costumes de Différents Pays*, published in France in 1788. Each illustration is finely drawn and colored by hand. The rich variety of Grasset de Saint-Sauveur’s collection reminds us vividly of how culturally apart the world’s towns and regions were just 200 years ago. Isolated from one another, people spoke different dialects and languages. In the streets or in the countryside, it was easy to identify where they lived and what their trade or station in life was just by their dress.

The way we dress has changed since then, and the diversity by region, so rich at the time, has faded away. It is now hard to tell apart the inhabitants of different continents, let alone different towns, regions, or countrieis. Perhaps we have traded cultural diversity for a more varied personal life--certainly for a more varied and fast-paced technological life.

At a time when it is hard to tell one computer book from another, Manning celebrates the inventiveness and initiative of the computer business with book covers based on the
