5. If the claim payment is successful, a green notification message appears in the bottom of the UI, as shown in figure 7.14. If the payment is not successful, a red notification message appears.

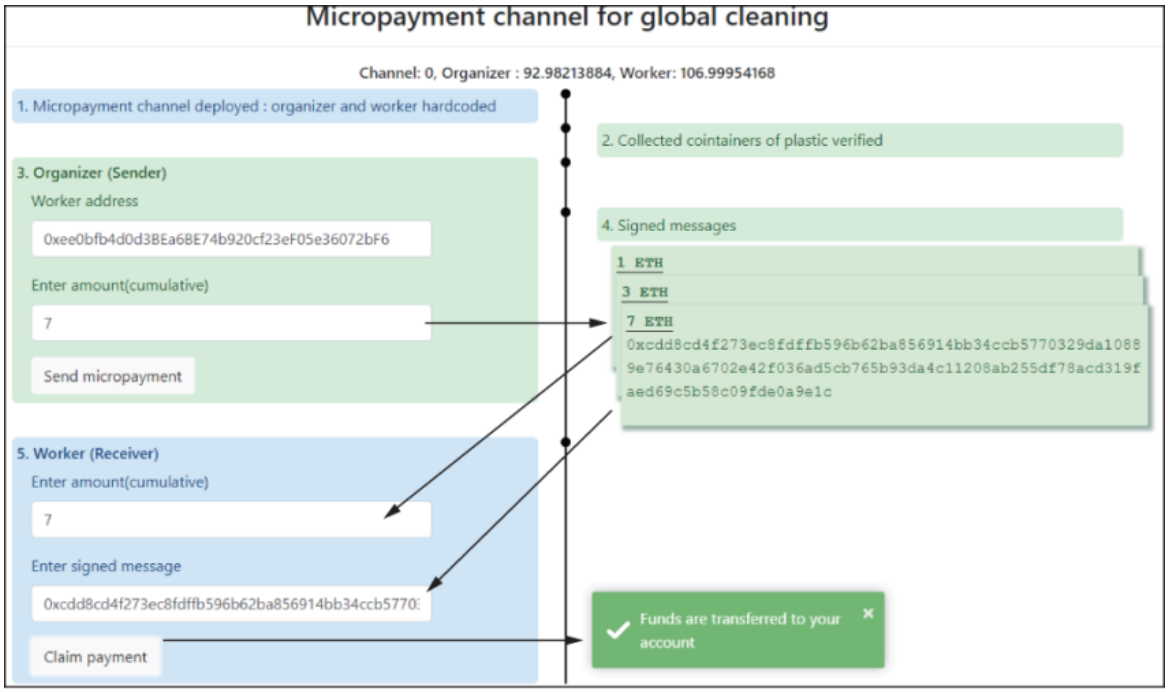

Figure 7.14 MPC sequence of operations and successful claim payment

Both organizer and worker accounts started with a balance of 100 ether and ended up with 92.98 and 106.99, with some fractional ether spent for gas points for transaction execution on the blockchain.
