a tool for generating it is available at https://iancoleman.io/bip39.

> **NOTE** Mnemonic is a method of remembering facts and items--a memory hook. Here is a common mnemonic for the order of planets: *m*y *v*ery *e*ducated *m*other *j*ust *s*erved *u*s *n*achos (Mars, Venus, Earth, Mercury, Jupiter, Saturn, Uranus, and Neptune). In the case of a blockchain account, the mnemonic maps to the numerical seed from which a deterministic set of account numbers is generated. *Deterministic* means that the same account sequence is restored every time you use this mnemonic.

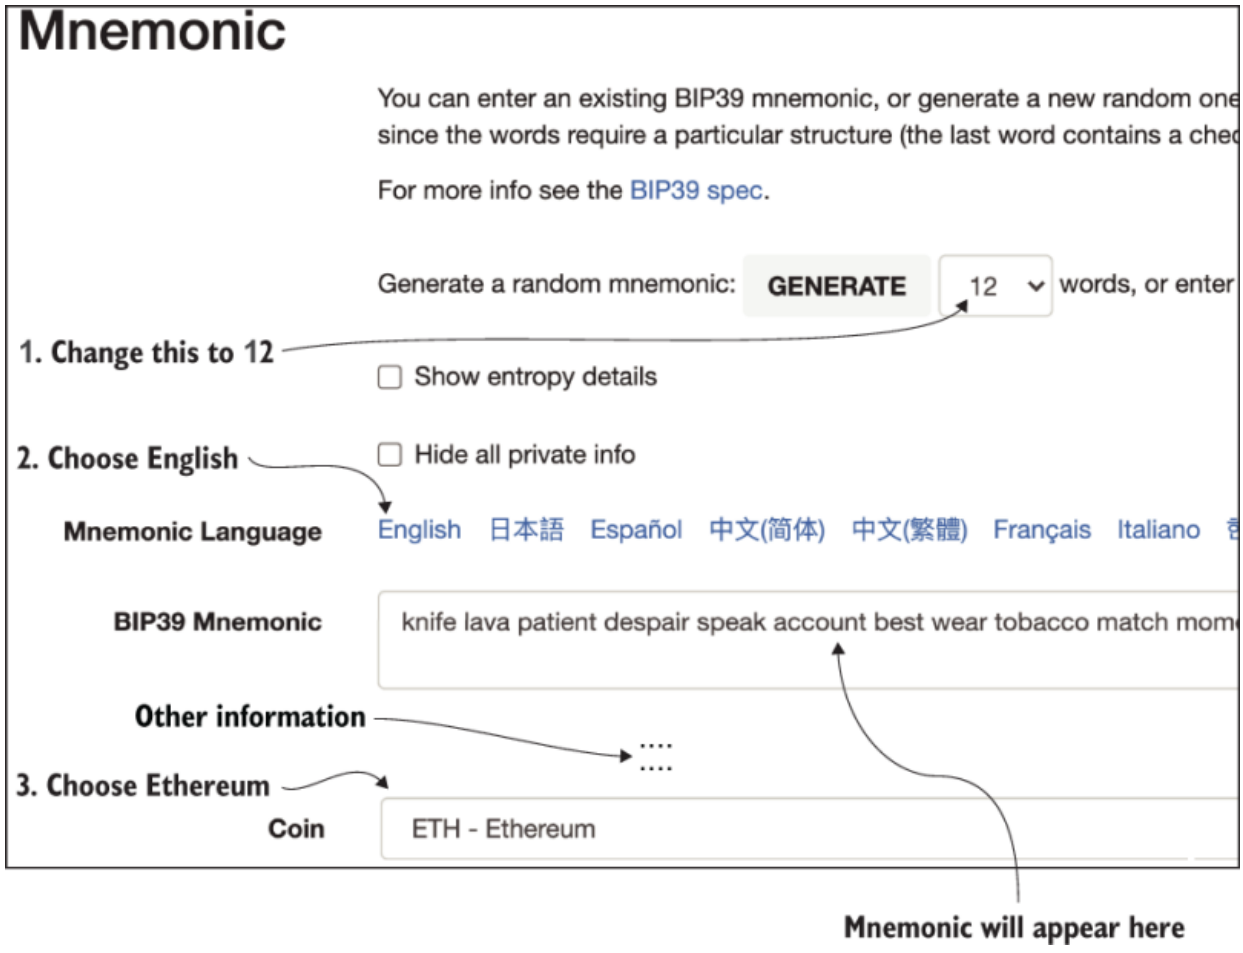

Figure 8.6 BIP39 Mnemonic generation interface

Open the BIP39 tool, and do the following:
