8. Build on the asset (by owner) increases the value of the asset. Reload (refresh) the browser, and move to Account2 in MetaMask. In the Build interface, enter the asset ID as `0` and the build value as 5, click Build, and confirm

   You see that the value of asset #0 has increased to 25, as shown in figure 9.8.

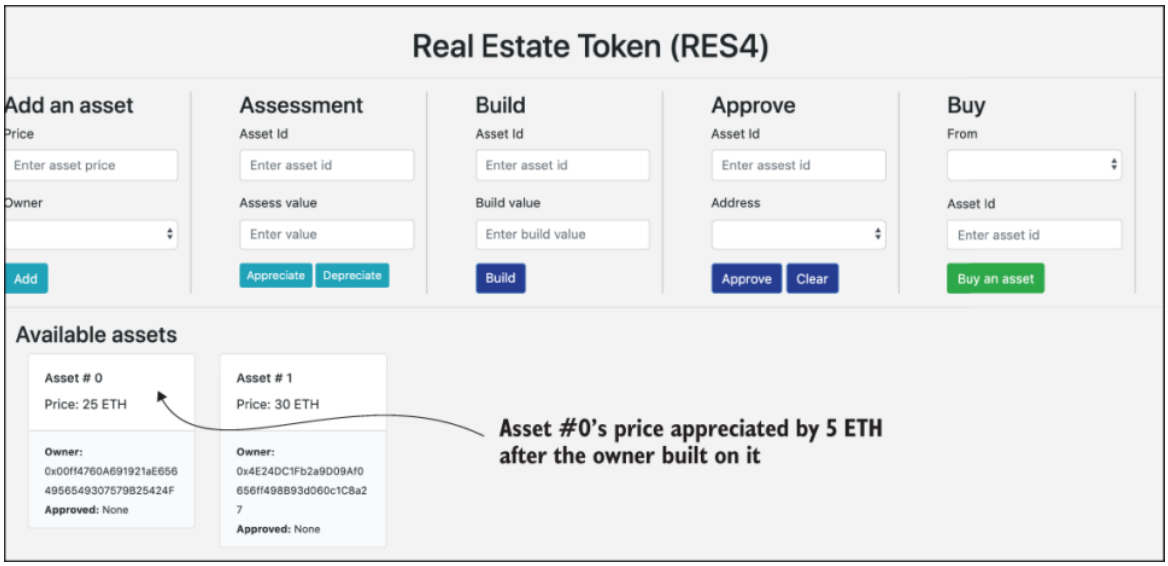

Figure 9.8 RES4 interface with asset #0 after building and increasing its value by 5 ETH
