organizing prompts *(continued)*
testing 142
versioning 141
output parsing 114

P

page and component terms 29
PageComponent 101
Performance.now() API 239, 241
personalized interview scenarios and feedback generation 6
PII (personally identifiable information) 16, 275
Pino logging library 238
post-processing 37, 115
preparing, documents for retrieval
document retrieval 182
full example 184
text splitters 180
vector stores 181
pretrained models 13
problem-solving, defined 4
prompt engineering 114, 129, 130, 131
chain-of-thought prompting 151–154
control tokens 136
defined 132–137
embeddings 154–164
few-shot learning 146–151
LLM techniques 164
max tokens 134–136
organizing prompts 139–145
types of 137–139
prompts, defined 332
prompt templates
integrating 173
managing 171–173
propagation effects 192
props, defined 28
public
endpoints 271
environment variables 286

Q

quality control problems 15

R

RAG (retrieval-augmented generation) 4, 197–198
RAG agents 317
challenges during development 325–327
project walkthrough 318–325
API routes 323
application architecture 323
authentication with Clerk 318
chatting with knowledge base document 321
creating new knowledge base 318
DocumentUploader 323
document uploading 319
key features 318–322
knowledgebase chat page 325
knowledgebase upload page 323
main dashboard page 318
other functionalities 321
technical implementation 322
technology stack overview 322–325
RAG web application 216–230
adding grounding support 225–230
key architectural components 217
project requirements 216
system components 219–223
technical architecture overview 218
web app demonstration 223
rate limiting 246, 280–285
message quota implementation 282–285
React
separating AI and UI state in applications 103–104
unit and integration testing in 256
DevTools extension 237
hooks 68
library 28
ReAct (Synergizing Reasoning and Acting in Language Models) 199
RecursiveCharacterTextSplitter 180, 204
redact-pii library 289
redirects, unauthenticated 279
Redis database 357
refine type 204
regulatory compliance 16
requiredWords 145
resource intensiveness 15
Response
generation 81
transmission 38
validation 41
