Std::Chrono::Duration::Operator/= Compound Assignment Operator

Divides the internal count for `*this` by the specified value.

Declaration

```
duration& operator/=(rep const& rhs);
```

Effects

```
internal_count/=rhs;
```

Returns

```
*this
```

Std::Chrono::Duration::Operator%= Compound Assignment Operator

Adjusts the internal count for `*this` to be the remainder when divided by the specified value.

Declaration

```
duration& operator%=(rep const& rhs);
```

Effects

```
internal_count%=rhs;
```

Returns

```
*this
```

Std::Chrono::Duration::Operator%= Compound Assignment Operator

Adjusts the internal count for `*this` to be the remainder when divided by the count of the other `duration` object.

Declaration
