```
    duration time_since_epoch() const;

    time_point& operator+=(const duration& d);
    time_point& operator-=(const duration& d);

    static constexpr time_point min();
    static constexpr time_point max();
};
```

Std::Chrono::Time_Point Default Constructor

Constructs a `time_point` representing the epoch of the associated `Clock`; the internal duration is initialized with `Duration::zero()`.

Declaration

```
time_point();
```

Postcondition

For a newly default-constructed `time_point` object `tp`, `tp.time_since_epoch() ==tp::duration::zero()`.

Std::Chrono::Time_Point Duration Constructor

Constructs a `time_point` representing the specified duration since the epoch of the associated `Clock`.

Declaration

```
explicit time_point(const duration& d);
```

Postcondition

For a `time_point` object `tp`, constucted with `tp(d)` for some duration `d, tp.time_since_epoch()==d`.

Std::Chrono::Time_Point Conversion Constructor
