Chapter 8: Arrays and Memory 121

Project 8: Decision Machine 121

Hooking It Up 122

Uploading the Source Code 124

Source Code Summary 127

Arrays 130

Declaring Arrays 130

Using Arrays 131

Character Arrays 134

Multidimensional Arrays 135

Arduino Memory 137

Checking Free RAM 138

Using Program Memory 139

Using EEPROM 140

Summary 142

Chapter 9: Hardware Libraries 143

Using Libraries 144

Creating an Instance 144

Initializing the Library 145

LiquidCrystal library 145

Example Code: Arduino Haiku 147

LiquidCrystal() 148

begin() 148

print() 148

clear() 149

setCursor() 149

Example Code: Symbols and Characters() 150

write() 151
