Here's a very small, easy one to show how it works.

2 To solve the puzzle, draw along the lines of the grid to make a connected loop. The numbers show you how many sides of each box you have to draw along.

Here's a solution to the puzzle above:

Here's your loop.
"3" boxes have lines drawn on three sides.
"2" boxes have lines drawn on two sides.

3 Once you've got the idea, try these …
