# MIRROR MATCHER

**A symmetrical shape is the same on both sides. One side is like a mirror image of the other. This game is a race to match both halves of a symmetrical shape together.**

## What do you need?

- Thin cardboard, such as a cereal box
- Pencil
- Scissors

This works best if you set a challenge for someone else or race against them.

## Set it up

1 Cut the cardboard into 8–10 cm (3–4 in) squares.
