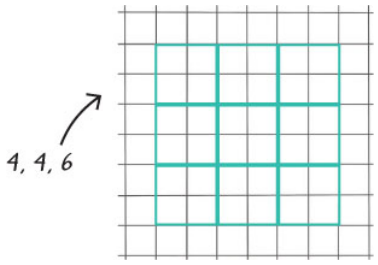
Amuse yourself for hours, or play with friends and set Loopturner challenges for each other.

Now try making some changes, and see what you get.

8 Try different arrangements of three numbers.



(Don’t worry if your lines go over each other—just keep drawing!)

9 What about more numbers? It works with 4, 5, 6, or even more numbers—but you might not get the same type of pattern! In fact, some will go on forever instead of coming back to where you started …
