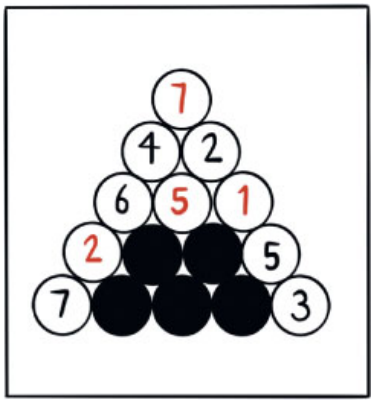
4 When both players have added the numbers 1–7, one circle will still be empty.

5 The dot of doom destroys all the dots that touch it. Fill in the dot of doom and all the dots around it with a pen.

6 Count up the remaining numbers for each person. Whoever scores the highest is the winner!

Black WINS!



Game science

You don’t want to put your highest numbers next to the dot of doom, but that’s tricky, since you write the highest numbers last. Can you figure out the best strategy?
