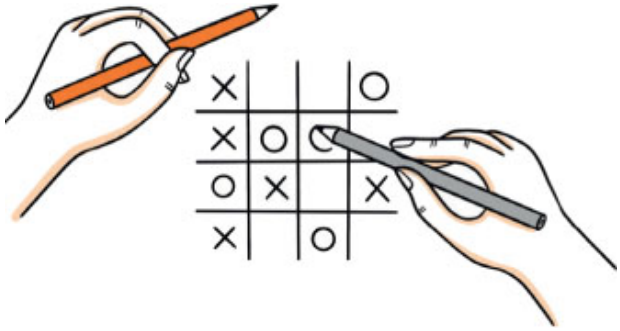
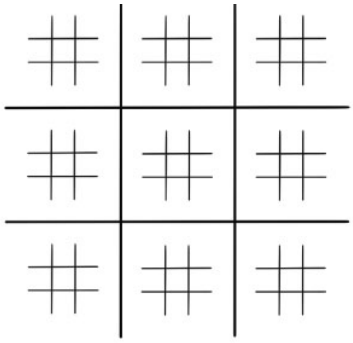
2 As in normal tic-tac-toe, players choose 0 or X and take turns filling in a square—but you try to get four in a row instead of three.



MULTI TIC-TAC-TOE

The ultimate tic-tac-toe!

1 First, draw your grid, which should look like this:



A large tic-tac-toe grid … with a small tic-tac-toe grid in each square

2 The first player draws their symbol in any of the squares.
