

## How to play

4 To play a turn, you “shoot” at a square on your opponent’s grid by saying its name, such as “F5.” They tell you whether it’s a hit and has landed on one of their boats, or a miss (which has landed in the sea!).

5 Keep track of your results on your second grid. If it’s a hit, put an X in square F5. If it’s a miss, put a O.
