NUMBER SEQUENCE DOT-TO-DOT

Make a mathematical dot-to-dot puzzle for a friend to solve.

What do you need?

- Paper
- Pencil

Set a challenge for a friend, or get two or more friends to race each other.

Set it up

1 Before making your own, look at this one to see how it works.

- Instead of just joining the dots, you have to find the numbers that make a sequence.
- In this puzzle, it’s the even numbers from 2–50.
- So, first you find the number 2 and start there.
