FLIP IT!

This game comes in many forms and has many different names. Some say it’s thousands of years old, but new versions have been invented more recently, and one version exists as the board game Othello.

What do you need?

- Paper or cardboard
- Ruler
- Pencil
- Scissors
- Glue

Set it up

1 You play the game on a grid with eight squares on each side, making 64 squares in total. It’s easy to draw one on paper or cardboard using a pencil and a ruler—or you might be able to print out one you’ve found online.
