

You can only move one space at a time, and you can’t jump.

5 The winner is the first to get all their pieces in a straight line, with one of them in the middle.

Game science

To win, you need one of your pieces in the middle. But if you move to the middle too early, you may get stuck and have to move out again, giving your opponent a chance to sneak in! Play a few times, and you’ll start to figure out a winning strategy.
