COUNT TO 30

Count to 30? That sounds easy enough, right? Except in this game, you DON'T want to be the one who has to say "30!"

This is good for a group of between 10 and 20 players.

What do you need?

- A group of friends to play with
- Brainpower!

How to play

1 Everyone sits in a circle, and one person is chosen to start.

2 They start counting up from one, but they can choose to say just one number, or two or three numbers.
