TEAM NUMBERS

Here is a super-simple, fun, and noisy high-speed number game for teams.

What do you need?

- 20 pieces of large cardboard
- Marker or pencil

You need two teams with at least four players in each, plus a caller to shout out numbers—so a minimum of nine people.

Set it up

1 Divide 20 large pieces of cardboard into two sets of 10, and use marker pens to write the numbers 0–9 on each set. Make the numbers as big and clear as you can.
