BINARY RACE

Binary, or base 2, is a counting system. All numbers, no matter how big, can be boiled down to a series of 0s and 1s.

We normally use the base 10 system, which has 10 number symbols:

0	1	2	3	4	5	6	7	8	9

Base 10

In base 10, you use the symbols 0—9, then start again from 10, using two columns.

For example, the number 11 means:
