- *Active listening and observation*—Pay attention to the interviewer's question, tone, and body language to gauge the expected level of detail.
- *Clarify expectations*—Ask for clarification if you are unsure about an expected detail, e.g., "Would you like a high-level overview or an in-depth explanation?"
- *Structure responses effectively*—Use frameworks like The RADIO Framework (discussed in chapter 8) or the STAR method (covered in chapter 9) to provide clear, organized narratives.
- *Start with a concise overview*—Begin with a brief summary, then pause to gauge interest and allow guidance.
- *Adapt response length and detail*—Adjust response length and depth based on interviewer cues and follow-up questions.
- *Time management*—Be mindful of response time, aiming for clear, concise answers within a reasonable timeframe.
- *Practice deliberately*—Rehearse answering common interview questions, focusing on clarity, concision, and structure. Seek feedback to improve.

By following these guidelines, candidates are better equipped to determine the appropriate response quality during an interview, showcasing their skills and intuition to potential employers.

Part one of this book reviews core frontend foundations, including HTML, CSS, JavaScript, and TypeScript. Covering these fundamentals—from basic principles to more advanced topics—ensures that everyone, regardless of prior experience, can benefit from a strong understanding of the essentials. This solid foundation is crucial for candidates to apply the funneling approach effectively during interviews.

1.4 Walking through React fundamentals

When it comes to web frameworks, we will focus on React—even though it is technically a library for building user interfaces—because it has become the dominant JavaScript technology in recent years and is now the leading choice for modern web development. While many job postings mention that experience with Angular or Vue is acceptable, simply being “willing to learn React” is not enough to stand out. Employers are increasingly expecting
