Table A.2 Popular JavaScript libraries leveraging HTML APIs

Library	HTML APIs leveraged	Use case
Cytoscape.js (https://github.com/cytoscape/cytoscape.js)	SVG API, DOM API	Provides tools for complex network visualization.
d3.js (https://github.com/d3/d3)	SVG API, DOM API	Enables dynamic data visualizations, such as charts and graphs.
Highcharts (https://github.com/highcharts/highcharts)	Canvas API, SVG API, DOM API	Renders interactive charts and graphs for data visualization.
Leaflet (https://github.com/Leaflet/Leaflet)	Geolocation API, Canvas API, DOM API	Builds interactive maps with geolocation features.
Plotly.js (https://github.com/plotly/plotly.js)	SVG API, DOM API	Creates interactive data visualizations, including charts and dashboards.
socket.io (https://github.com/socketio/socket.io)	WebSocket API	Implements real-time, bidirectional communication between clients and servers.
