rest of the charts on a dashboard by that data. You can begin by clicking tasks labeled “integration” in the Labels panel from figure 3.15.

**Figure 3.15. Sorting data by labels and seeing the effect on development time**

In this case you can see that tasks labeled “integration” take a particularly long time: 17, 13, or 5 full days. Conversely, you can also sort on development time to see which labels take a long time, as shown in figure 3.16.

**Figure 3.16. Sorting labels by development time**

In chapter 7 we take a closer look at exploring data and the relationship between data points.
