

Figure 7.5 The simple interface and the waiting spinner

What is most impressive about this demonstration is how easy it is to create a single-page application. In the next section, we'll continue looking at this application but with a few enhancements.

7.2.2 Creating a streaming chat application

Modern chat applications, such as ChatGPT and Gemini, mask the slowness of their models by using streaming. Streaming provides for the API call to immediately start seeing tokens as they are produced from the
