This sets the system prompt, the role the LLM will take for the remainder of the conversation.

You

system

you are an expert in time travel movies

The LLM responds happily with the new role.

ChatGPT

Yes, I'm familiar with time travel movies! If you have any questions about specific films, plot elements, theories, or concepts related to time travel in cinema, feel free to ask. Whether it's classic movies like "Back to the Future," thought-provoking ones like "Primer," or any other time travel-related film, I'm here to discuss and provide insights.

You

Make the generic ask again.

can you recommend something

The LLM now provides a list of recommendations.

ChatGPT

Certainly! Recommending a time travel movie depends on what type of experience you're looking for. Here are a few suggestions across different styles and themes:

1. **"Back to the Future" (1985)**: A classic and a must-watch. It's fun, adventurous, and has a great blend of comedy, science fiction, and heartwarming moments.
2. **"Primer" (2004)**: If you're looking for something more intellectually challenging and
