

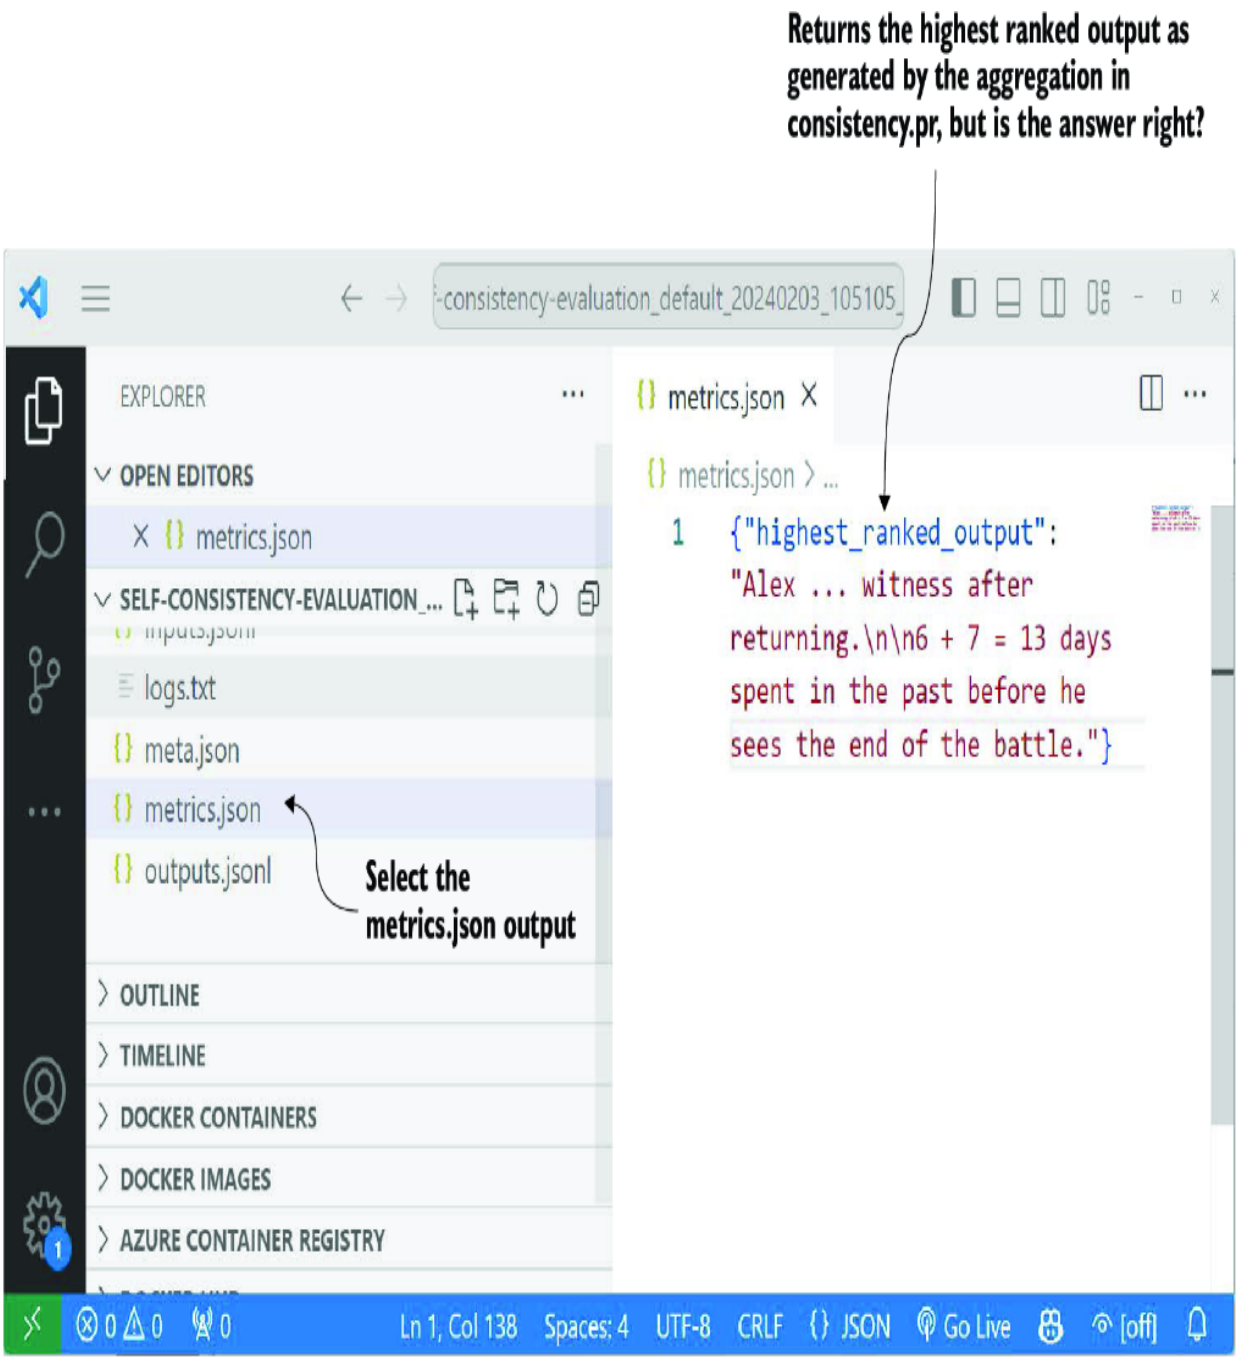

**Figure 10.9 The VS Code is open to the batch run output folder. Highlighted are the `metrics.json` file and the output showing the most similar answer.**

The answer shown in figure 10.9 is still incorrect for this run. You can continue a few more batch runs of the prompt and/or increase the number of runs in a batch and then evaluate flows to see if you get better answers. This technique is generally more helpful for more straightforward
