What is an interesting fact of Paris?
Paris, the City of Light, is rich in history and fascinating facts. Here are three intriguing facts about Paris:
1. The Eiffel Tower was originally built as a temporary structure. Commissioned by the French government to mark the centennial of the French Revolution, it was initially criticized by some of France's leading artists and intellectuals for its design and perceived intrusion into Paris's architectural landscape.
2. The Louvre Museum is home to thousands of works of art, as well as numerous historical artifacts. Among the museum's most famous and iconic works of art are Leonardo da Vinci's Mona Lisa, which has long
