4.2.2 Enhancing code output with agent critics

4.2.3 Understanding the AutoGen cache

4.3 Group chat with agents and AutoGen

4.4 Building an agent crew with CrewAI

4.4.1 Creating a jokester crew of CrewAI agents

4.4.2 Observing agents working with AgentOps

4.5 Revisiting coding agents with CrewAI

4.6 Exercises

5 Empowering agents with actions

5.1 Defining agent actions

5.2 Executing OpenAI functions

5.2.1 Adding functions to LLM API calls

5.2.2 Actioning function calls

5.3 Introducing Semantic Kernel

5.3.1 Getting started with SK semantic functions

5.3.2 Semantic functions and context variables

5.4 Synergizing semantic and native functions

5.4.1 Creating and registering a semantic skill/plugin

5.4.2 Applying native functions

5.4.3 Embedding native functions within semantic functions

5.5 Semantic Kernel as an interactive service agent

5.5.1 Building a semantic GPT interface

5.5.2 Testing semantic services

5.5.3 Interactive chat with the semantic service layer

5.6 Thinking semantically when writing semantic services

5.7 Exercises
