years, he has been involved in AI/ML, Reactive, and IOT systems, all based on container technology. Dealing with security, concurrency, and system integration has always been an important part of these systems.

Rob Williams is the founder of ontometrics, a practice focused on Java solutions that include machine learning. He first used actor-based programming a decade ago and has used it for several projects since.

about the cover illustration

The figure on the cover of *Akka in Action, Second Edition*, is taken from a book by Thomas Jefferys, published between 1757 and 1772.

In those days, it was easy to identify where people lived and what their trade or station in life was just by their dress. Manning celebrates the inventiveness and initiative of the computer business with book covers based on the rich diversity of regional culture centuries ago, brought back to life by pictures from collections such as this one.
