These nodes join the cluster, as shown in figure 8.6.

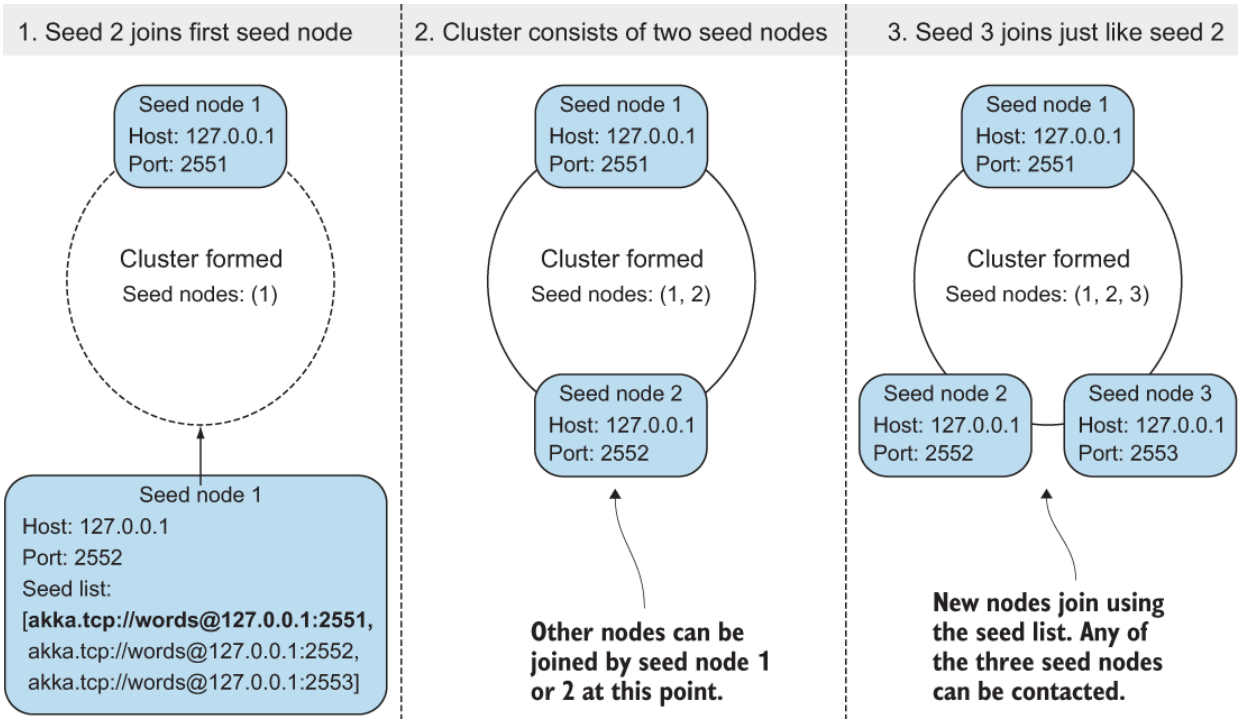

Figure 8.6 Start up the second seed node.

After you start nodes 2552 and 2553, you can see in their outputs the confirmation that the nodes have joined the cluster:

```
INFO akka.cluster.Cluster - Cluster Node [akka://words@127.0.0.1:2552] -
➥Welcome from [akka://words@127.0.0.1:2551]                              ❶
```

❶ Accepted and gets ack from the leader

The next snippet shows the output of the first seed node confirming that node 2 wants to join, is accepted, and is set to Up by the leader:

```
Cluster Node [akka://words@127.0.0.1:2551] - Sending InitJoinAck message
➥from node [akka://words@127.0.0.1:2551] to
➥[Actor[akka://words@127.0.0.1:2552/...                                  ❶
Cluster Node [akka://words@127.0.0.1:2551] - Node
➥[akka://words@127.0.0.1:2552] is JOINING, roles [seed, dc-default],
```
