ordinary text. Sometimes code is also **`in bold`** to highlight code that has changed from previous steps in the chapter, such as when a new feature adds to an existing line of code.

In many cases, the original source code has been reformatted; we've added line breaks and reworked indentation to accommodate the available page space in the book. In some cases, even this was not enough, and listings include line-continuation markers (➥). Code annotations accompany many of the listings, highlighting important concepts.

You can get executable snippets of code from the liveBook (online) version of this book at https://livebook.manning.com/book/razor-pages-in-action/welcome/v-10/. The complete code for the examples in the book is available for download from the Manning website at https://www.manning.com/books/asp-net-core-razor-pages-in-action, and from GitHub at https://github.com/mikebrind/Razor-Pages-In-Action.

liveBook discussion forum

Purchase of *ASP.NET Core Razor Pages in Action* includes free access to liveBook, Manning's online reading platform. Using liveBook's exclusive discussion features, you can attach comments to the book globally or to specific sections or paragraphs. It's a snap to make notes for yourself, ask and answer technical questions, and receive help from the author and other users. To access the forum, go to https://livebook.manning.com/book/razor-pages-in-action/welcome/v-10/discussion.
