will add to the Create Property form. Add the following block of code just after the select city list.

Listing 6.21 Using the `Html.GetEnumSelectList` method to bind enumerations

```
<div class="mb-3">
    <label asp-for="Rating"></label>
    <select class="form-control" asp-for="Rating" asp-
items="Html.GetEnumSelectList<Rating>()"></select>
</div>
```

Run the page. The enumeration values should appear in the select list (figure 6.13).
