managing HttpClientHandler lifetime 832 – 835
IIS (Internet Information Services) 4, 17, 33, 243, 684, 861
IIS (Internet Information Services), publishing apps to 692 – 697
configuring IIS for ASP.NET Core 692 – 694
preparing and publishing 695 – 697
IIS Express profile 243
IJob interface 863, 866
IL (Intermediate Language) code 22
ILogger interface 655, 659 – 660, 663, 665 – 666, 668 – 669
ILogger<> instance 660
ILogger<> interface 660
ILogger<PrivacyModel> instance 325
ILoggerProvider interface 658, 763
IMessageSender interface 199, 202
IMiddleware interface 782
imperative authorization 613
imperative programming 613
implicit page handler 363
IMvcBuilder object 505, 508
IncludeMachine property 802
IncludeOS property 802
Index method 477 – 478, 490, 497
Index Razor Page 365, 460
IndexModel class 662
Information log 663, 665, 674
INI (Initialization) files 218
<input> element 437, 442 – 443, 447, 805
input formatters 496
Input property 365, 396 – 397, 440
<input> tag 800
Input Tag Helper 447 – 451
<input> type 449
InputModel class 403
insecure direct object reference (IDOR) 613, 747
int data type 144, 146, 160, 168, 365, 450
int parameter 386
int route constraint 130
integer id parameter 130
integration testing 895 – 905
creating TestServer 896 – 899
WebApplicationFactory
creating custom 904 – 905
replacing dependencies in 901 – 904
testing with 899 – 901
Introduction to Windows Containers (McCabe and Friis) 699
Invoke function 781 – 783, 888
InvokeAsync method 810 – 811
IoC (Inversion of Control) 49, 174, 179
IoC container 178
IOptions interface 790
