organizing APIs with route groups 113 – 115
response generation 94 – 104
converting all responses to Problem Details 99 – 103
returning status codes 95 – 98
returning useful errors 98 – 99
JWE (JSON Web Encryption) 635
JWTs (JSON Web Tokens) 842
adding bearer token authentication to minimal APIs 637 – 640
user-jwts tool 640 – 644
creating JWTs with 640 – 642
customizing JWTs 642 – 644
managing local JWTs 644

K

Kestrel 714 – 716
key file 734
Khorikov, Vladimir 873, 919

L

Label Tag Helper 446 – 447
lambdas 195 – 199
Lander, Richard 920
Language Integrated Query (LINQ) 22, 283
Last-Modified header 546 – 547
latitude key 220, 222
layout files 414
Layout property 425, 427, 431
layouts
overriding parent layouts using sections 426 – 428
using for shared markup 424 – 426
length(value) route constraint 130
lifetimes 202 – 210
captive dependencies 208 – 210
scoped 206 – 207
singleton 207 – 208
transient 205 – 206
link generation 459 – 460
LinkGenerator 133 – 134
generating URLs 350 – 352
generating URLs for minimal API endpoints with 134 – 136
implementation 187
methods 138
LinkOptions parameter 138
LINQ (Language Integrated Query) 22, 283
Linux, hosting apps on 697
preparing apps for deployment 700 – 702
running app behind reverse proxy on Linux 698 – 700
Listwon, Benjamin 88
literal segments 126 – 128
literal value 127
LocalRedirect() method 744
