McCabe, John 699
MDN (Mozilla Developer Network), introduction to HTTP 90
MessageFactory object 176
metadata
  adding to endpoints using attributes 271 – 272
  adding to endpoints using XML documentation comments 272 – 275
  adding to minimal APIs 254 – 256
method attribute 444
method parameters 388 – 389
MethodInfo property 112
Metzgar, Dustin 873, 919
Microservices in .NET Core, 2nd ed. (Gammelgaard) 867
Microsoft .NET Team's blog 923
Microsoft namespace 671 – 672, 675
Microsoft.AspNetCore.Http namespace 95
Microsoft.AspNetCore.HttpLogging namespace 50
Microsoft.Extensions.DependencyInjection namespace 817
Microsoft.Extensions.DependencyInjection.Extensions namespace 202
middleware 772 – 788
  adding to with Use extension 778 – 781
  authentication 562 – 566
  branching with Map extension 775 – 778
  combining in pipeline 61 – 73
   holding pages 61 – 64
   minimal API applications 68 – 73
   static file handling 64 – 68
  converting middleware into endpoint routing endpoints 784 – 788
  creating simple apps with Run extension 773 – 774
  custom middleware components 781 – 784
  defining request handling with 50 – 52
  endpoint filters vs. 108 – 109
  error handling 74 – 82
   handling exceptions in production 77 – 82
   viewing exceptions in development 76 – 77
  HTTPS redirection 720 – 721
  overview of 56 – 60
  unit testing 888 – 891
Miell, Ian 699
migrations 293 – 299
  adding 297 – 299
  creating 294 – 297
Mikesdotnetting (Brind) 922
min(value) route constraint 130
minimal API applications
  combining middleware in pipeline 68 – 73
  creating JSON APIs with 88 – 94
  model binding and validation in 141 – 170
minimal APIs
  adding bearer token authentication to 637 – 640
  adding metadata to 254 – 256
