encapsulating markup 428 – 430
Password data type 450
password input type 450
passwords, protecting 747 – 748
Path property 778
Path.Combine construct 702
PathBase property 778
pattern matching for null values 148
Petropoulos, Angelos 920
Phone data type 450
Photo objects 392
Pine, David 923
pipeline, defined 57
plain-text pong response 784
Platform as a Service (PaaS) 686, 710
PMC (Package Manager Console) 294
POCO (plain old CLR object) 94, 142, 216, 283, 379, 474, 523, 606
policy, defined 601 – 602, 736
Polly, handling transient HTTP errors with 839 – 842
POST endpoint 90, 93, 300
POST form 732
POST HTTP verb 45, 84, 90, 381, 406, 444, 497, 501, 733
POST method 250
POST requests 91, 93 – 94, 149, 153, 300, 363, 365, 402, 501, 730
PostAcquireRequestState event 60
PostConfigure() method 793
preflight request 736
primary key 290
Problem Details
converting responses to 99 – 103
error status codes 102 – 103
exceptions 100 – 102
returning useful errors with 98 – 99
Problem method 99
ProblemDetails 492, 503, 505, 544
Process() function 801 – 802, 805
ProcessAsync() function 801
Product instance 149, 277
product segment 128
Product type 277
ProductId 146 – 147
ProductId endpoint parameter type 147
ProductId property 445
ProductModel custom type 386
ProductModel property 381
Products/ProductDetails route template 352
profiles for applications 243
Program class 43, 46, 228, 755 – 757, 877, 896, 900 – 901
Program.cs file
adding configuration providers in 221 – 223
